

Dietitian earns board certification

MARIETTA — Georgia Cancer Specialists employee **Bethany Smith, RD, LD**, recently achieved board certification as a Certified Specialist in Oncology Nutrition. She is one of only seven registered dietitians in Georgia with this certification.

Smith serves the GCS Kennestone office, at 340 Kennestone Hospital Boulevard, Suite 100 in Marietta, and the GCS Cobb office, at 1700 Hospital South Drive, Suite 102 in Austell.

The CSO credential can only be earned by a registered dietitian who has passed a nationally administered examination, which can only be attempted after accumulating a minimum of 2,000 hours of documented practice in the specialty area.

Specialists in oncology nutrition work directly with individuals at risk for or diagnosed with cancer in hospitals, clinics and cancer centers. For more information, visit www.gacancer.com.
